

## Erin Michelson, Founder + CEO

Erin Michelson is Founder & CEO of Summery, a technology company leveraging behavioral science and AI to drive stakeholder engagement by measuring, assessing, and activating organizational cultural alignment. Leading a team of behavioral, cognitive, and data scientists, Erin is recognized as a woman leader in AI and has been highlighted in @Forbes, @Entrepreneur, @BBCTech, @HuffPost, @NatGeoTravel, @FoxNews, @Authority, and @NPR.

Before turning to technology, Erin had a 10-year career in global finance, working with companies such as Bank of America, Morgan Stanley, and American Express. She's also consulted with global social impact leaders including W.K. Kellogg, Tides, Ashoka Foundations.

Author of the book series [Adventure Philanthropist](#), Erin earned a BA from Mills College, a MA from the New School for Social Research, and a Masters of Philosophy (M.Phil) from the Chinese University of Hong Kong. After traveling to more than 100 countries volunteering with humanitarian organization, Erin now resides in the San Francisco Bay Area, where she can be spotted enjoying the beautiful Northern California wildlife.

## Say Hello to Summery

Summery delivers AI-driven applications that measure and assess individual values and organizational culture. By combining behavioral science with machine learning and Natural Language Processing (NLP), we activate and analyze stakeholder engagement and organizational cultural alignment.

Our core technologies, the Net Culture Score® (NCS) and The Kind Quiz®, are in use in 146 countries with multi-lingual capabilities. We are thrilled to work with partners such as the Bill & Melinda Gates Foundation, NASDAQ and Fortune 500 companies like Salesforce, and educational organizations like Stanford University, Duke University, and the California Community College system.
